

Health Assessment for Housing

Health Assessment for Housing

This Health Assessment for Housing scheme has been developed by Berwickshire, Eildon, Scottish Borders, Cairn Housing Associations and Waverley Housing in conjunction with NHS Borders and Scottish Borders Council.

If your health is affected in some way by your present accommodation, all of the participating landlords offer some level of priority under this scheme*

Health Assessments are carried out by housing staff, who may visit you at home. Only people involved in assessing your application for housing will have access to the information about your application. However the final grade and recommendation can be shared between the participating landlords if you apply to more than one. For example, if you apply to both SBHA and Border Choice Homes, usually only one assessment will be made and the outcome shared between the landlords involved.

We aim to complete the assessment process within three weeks of your application, but where we have to obtain reports from other professionals, such as Occupational Therapists, GP's etc., this can delay the process a little further.

There are five grades of Health Assessment (grades A to E). The table below shows how many points are awarded by Scottish Borders Housing Association for each grade.

Priority is awarded as follows:

- Grade A (40 points) Where an applicant has a health problem and is unable to return to their home, or unable to continue living in their own home because they would not be able to gain access to essential facilities unaided and/or they are at significant risk of doing so, or due to significant and enduring mental illness they are unable to return or continue to live in their current home and/or environment, and it is not practical to adapt their home to meet their needs.
- Grade B (30 points) Where an applicant has a health problem and is living at home and they are unable to gain access to essential facilities unaided, and/or they would be housebound because they could not get out of their home unaided, or their mental illness severely restricts their ability to continue to live in their current home and/or environment and it is not practical to adapt their home to meet their needs.
- Grade C (20 points) Where an applicant has a health problem and is living at home and becoming less able to access essential facilities unaided, and/or they are becoming less able to get out of their home unaided, or they are becoming less able to cope in their current home and/or environment due to their mental illness, and it is not practical to adapt their home to meet their needs.
- Grade D (10 points) Where an applicant has a health problem and is living at home and for health (physical or mental) reasons the facilities in the home do not meet their current needs (for example the applicant needs a shower rather than a bath, or another form of heating).
- Grade E (0 points) No health benefit from a move.

*Please note applicants to Berwickshire Housing Association have to demonstrate housing related need to live in the Berwickshire area to qualify.

In order to assess your health priority for re-housing a report from a health or social work professional or from a voluntary service or other Housing Provider may be requested. Your consent for this form to be copied to them and for them to give us relevant information to help in this health assessment is required.

Where you want to apply to several participating Housing Providers (details of participating providers are given on page 2 of this leaflet) it has been agreed that one will undertake the assessment and pass on the outcome (i.e. priority grade and any special housing requirements, but not any clinical details from professional reports) to the others. This will avoid the need for you to complete several forms and for several assessments to be undertaken. We would therefore also require consent for the Housing Provider doing the assessment to share the outcome with other Housing Providers you have applied to.

I confirm that the information given on this form is true, and also give my consent for the transfer of relevant information as outlined above, solely for the purpose of health priority assessment and housing allocation. I understand that all information will be treated as strictly confidential and only be available to those who need to see it to assess my health priority.
